

ecaljdoc

What is ecaljdoc?

ecaljdoc is a suit of documents of the [ecalj package](https://github.com/ecalj/ecalj). Since we use vitepress for ecaljdoc, we have

- Read ecaljdoc (<https://ecalj.github.io/ecaljdoc>)
- Source ecaljdoc (<https://github.com/ecalj/ecaljdoc>)

If you can join to edit ecaljdoc, ask to msobt at <https://github.com/msobt>.

How to edit this document with vitepress

- Get source of ecaljdoc

```
git clone git@github.com:ecalj/ecaljdoc.git
```

Changes at [git@github.com:ecalj/ecaljdoc](https://github.com/ecalj/ecaljdoc) is promptly reflected at <https://ecalj.github.io/ecaljdoc>

- Install the dependency

```
npm install
```

- Generate document site (ecaljdoc) in your local machine

```
npm run docs:dev
```

If it works, you will find the following message

```
vitepress v1.6.3

→ Local:   http://localhost:5173/ecaljdoc/
→ Network: use --host to expose
→ press h to show help
```

The generated document site can be seen from <http://localhost:5173/ecaljdoc/>. Use the URL with your web browser.

Note that we have two key files of vitepress;

- Main page configuration: [index.md](#)

- Sidebar configuration: [.vitepress/config.mts](#)
